

# Project Design

1. Set up independent wireless link for each camera site to security office
2. Long Distance Up to 10 km
3. The wireless system work with DC 12V, to compatible to solar power / generator
4. Perfect Video transmits without internet or cable connection
5. PTZ controlling

# Benefit of the System

1. Fast Deployment
2. Range expandable
3. Flexible of camera location changing
4. Video / Audio transmitting
5. Sensor /Alarm compatible
6. Work with vehicle battery DC 12 / 24V

# Equipment Description

## Wireless:

- **JPE-5006P**: Professional 5~6GHz Full Band Wireless Video Transmitting System

## Video Server:

- **AVS-264** : MPEG-4 Video Server

## Video Decoder

- **AVS-200D**:MPEG-4 Video Decoder
